<b>Description</b>	
The repository does not contain a README nor a requirements.txt which describes the python dependencies	
It should include at least:	
- pyusb	
- pypispm	
- python-smpplib

I think the README file should just point to the user manual in <http://ftp.osmocom.org/docs/latest/osmo-gsm-tester-manual.pdf>  
Perhaps also a link to the ansible recipes.

Big update of User Manual in this commit mentions the dependencies:  
<https://gerrit.osmocom.org/c/osmo-gsm-tester/+17447>

It also mentions the existence of the Ansible scripts.

There's also check\_dependencies.py in the root osmo-gsm-tester.git dir which should check for dependencies. It may need some updating though.
