Target version:	
Spec Reference:	
Description ttsou was working on mobile-station (MS) support for osmo-trx back in 2014, see http://git.osmocom.org/osmo-trx/log/?h=ms It would be great to move this forward and get it merged. From the commit log it looks rather comprehensive. The control interface should be harmonized with gr-gsm so we can have a gnuradi-based and a non-gnuradio based MS-side TRX implementation.
