

OsmoSTP - Bug #4233

osmo-stp segfaults if IPA client with unknown unit_name attaches

10/18/2019 09:29 PM - laforge

Status: Closed	Start date: 10/18/2019
Priority: High	Due date:
Assignee: laforge	% Done: 0%
Category:	
Target version:	
Spec Reference:	
Description If there's no AS configured with the unit_name presented by the IPA client, OsmoSTP crashes.	
Related issues: Is duplicate of OsmoSTP - Bug #4234: osmo-stp segfaults if IPA client connect... Resolved 10/18/2019	

History

#1 - 10/18/2019 09:30 PM - laforge

the crash happens in ipa_asp_fsm_del_route() where we OSMO_ASSERT(as). So basically we either shouldn't call ipa_asp_fsm_del_route() for which no AS hasn't been resolved yet, or we should remove the ASSERT.

#2 - 10/20/2019 04:58 PM - laforge

- Is duplicate of Bug #4234: osmo-stp segfaults if IPA client connects to AS with routing-key != 0 added

#3 - 10/20/2019 04:59 PM - laforge

- Status changed from New to Closed

actually, this only happened due to a non-zero routing context being configured for IPA, which is illegal (see [#4234](#))
