

## OsmoSGSN - Bug #43

### Destroying LLC-LLE after a GPRS Routing Area Update Reject

02/19/2016 10:47 PM - zecke2

<b>Status:</b> Closed	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> lynxis	<b>% Done:</b> 100%
<b>Category:</b>	
<b>Target version:</b>	
<b>Spec Reference:</b>	
<b>Description</b>	
Right now we allocate the LLC-LLE ad-hoc but it will stay allocated even after we have RAU-Rejected the subscriber and he will not be back with the same P-TMSI. We need a way to delete the LLC-LLE in this case.	
Harald's proposal was to use/queue primitives. For the above case we would send a XID, queue the reject and the destroying of the LLC-LLE context.	

#### History

**#4 - 09/02/2019 08:10 AM - dexter**

- Status changed from New to Feedback

- Assignee changed from dexter to lynxis

[lynxis](#) I have the feeling that this may be fixed already. Can you tell me if this is already fixed?

**#5 - 09/15/2019 10:17 PM - lynxis**

- % Done changed from 0 to 100

Yes, it's fixed.

**#6 - 09/15/2019 10:17 PM - lynxis**

- Status changed from Feedback to Closed
