

OsmoBSC - Bug #69

No timers for various calls

02/19/2016 10:47 PM - zecke2

Spec Reference:	

Description

Testing with the [FakeBTS](#) has shown various issues. This could be split into several tickets if we ever start to do something about it:

- 1.) It is possible to send MDCX without a CRCX (in case the bts/ms does not respond to the channel mode modify)
- 2.) Not sending mode modify ack from the BTS triggers T10 but the channel is not taken down.
